

## Short Course in Tissue Salts

Endorsed by the African National Healers Association

The human body was created from the dust (minerals) of the earth. Certain factors deplete the body of this essential micro-minerals, and the body cannot function optimal which can cause dis-ease.

- The goal of this course is to train the eye to perform a facial and physical analysis to identify the deficiency of each of the 27 tissue salts. These deficiencies can then be supplemented Tissue Salts to enhance the health of a person.
- The course consists of a Manual, Work Assignments and Case Studies.
- This course qualifies you as a **CERTIFIED TISSUE SALT ANALYSIST**.
- No previous qualifications necessary. All you will need is a laptop / desktop as well as a reliable internet connection.
- Course fee for full course in Cell Nutrition is R7000.00 or 4 modules at R2000.00 per module.
- To register contact your study leader Dr P Smit at [drpetrosmit@gmail.com](mailto:drpetrosmit@gmail.com).

### CELL NUTRITION

Course content:

- Introduction and History
- Biochemistry
- Physiology
- The function of the cell
- Basic benefits of tissue salts
- Causes of cell micro-mineral deficiencies
- Uses of tissue salts
- The 12 basic tissue salts
- Additional 14 tissue salts
- Facial analysis
- How to become a practising Tissue Salt Analyst
